## BRILLIANT AFFAIR

Every Island Colony Represented At Great Santa Barbara Social Event.

The opening of the club house just built by the Women's Economic Club of Santa Barbara, which occurred on New Year's Eve night, was probably the most splendid social affair that Americans on the event when they get together. All sections of the island were represtented by some of its most importan business and social persons. The affair in itself was a reception, a ball and reunion with many incidental features which made it noteworthy.

The success of the occasion emphasized the accomplishment of a splendid endeavor on the part of the women who compose the Women's Economic Club of Santa Barbara. The club house which was being dedicated and inaugurated was artistically decorated with palms and flowers is a structure not so imposing in appearance as it is the new factory is the result. Unless something interferes they will make the trip some time during March

Dr. H. C. Bullard of Santa Barbara Heights left on Sunday's boat for Havana, at which place he will meet a friend from the United States and together they will make the journey to the Panama Canal Zone and return. Dr. Bullard is one of the prominent and wealthy residents of the Heights section, and is doing much improvement on his place.

E. L. Morse and his son E. F. Morse of New Haven, Conn., reached the island Thursday and will be here for some time. They are owners of tracts 1183 and 1184 in Santa Barbara which are located in Santa Barbara Heights. Thus far they have had three acres cleared, plowed and fenced and will put in pineapples etc.

Mr. and Mrs. M. T. Pollard will spend the week end in Santa Fe the guests of friends.

H. A. Christy of Chicago whose beautiful home "Vista Hermosa" near Santa Fe is one of the great places of the island, has returned to the Windy City after a visit to his family here of several weeks. Mr. Christy is a true Isle of Pines boomer and has done much for its progress. His investment here is one of the largest made by any individual and he is proud of the island's prospects.

## SOME INDEPENDENT ENTERPRISE

The managers of the Santa Fe Fair enterprise have demonstrated that they can do a big work without assistance from the outside. The full amount requisite for building the exhibition hall has been raised among Santa Fe people and the structure is of a durable kind and will serve its purpose for a long time to come. It is evident that the annual Fair and Exhibition at Santa Fe is to be a lasting institution. It would seem that the example set by the Americans of Santa Fe would be emulated by those of other colonies.

## SWEATED ORANGES

Federal Authorities Will Attempt To End "Sweating" Of All Citrus Fruits.

That the United States federal authorities are beginning the attempt to put a stop to the marketing of "sweated" fruit within the confines of the United States, is apparent from the action of Federal Judge Landis of Chicago in having con fiscated eight car loads of oranges which had been seized at Proviso. This fruit had been picked entirely too green and had been "sweated" in order to give it color and in con sequence was unfit for consumption. The case in question is of interest to fruit growers and shippers everywhere and its result should be heeded by those of the Isle of Pines.

A summary of the case appeared in the Chicago Tribune of Dec. 21st., and is as follows:

"Oranges picked green and run through a Turkish bath known as the "sweating process" to bring out the yellow tint are colored artificially to conceal inferiority, according to a decision handed down by Judge Landis yesterday.

"He ordered confiscated eight carloads of the "sweated" fruit seized at Proviso.

The decision affects the entire citrus fruit industry of California and Florida. Its intent is to put a stop to the practice of "sweating" green fruit and placing it on the market as a superior article of food. The case is the first of its kind on record.

### Seeks to Stop Adulteration.

"There are two things the pure food law seeks to prevent -- misbrand ing and adulteration," said Judge Landis in giving his decision.

is to give the consumer, not the expert in any line of business, but the ultimate consumer a chance to know what he buys and eats."

"The confiscated cars contain 480. 000 oranges, valued by the shippers at \$10,000 The court will enter an order this morning as to the disposition of the fruit. It is likely that the fruit will be sold under a label stating they are "sweated," or of an inferior grade.

## It Pays to Buy Good Citrus Trees

Then you know that when they come into bearing they will produce profitable crops of fruit true to name. For more than thirty years Taber trees have been building their reputation with the growers of the Citrus belt. In hundreds of profitable groves they have shown their many good qualities.

## Every Taber Tree Is a Tested Tree

We have our own groves in which we try out all the grapefruit, orange, lemon, kumquat and other fruits adapted to this section. Only those kinds which have absolutely proved their merit in these tests are propagated in our Nurseries. We offer our customers the same kinds we grow in our groves.

SANTA SANTA BARBARA INN LOCATED BARBARA.

### DON'T BE SATISFIED

mitil you have visited West McKinley and looked over our acreage. Our resident manager will show you the land we have for sale in the heart of a colony having more individual investors (over 2000) than any other American settlement outside of the United States.

### Developments in West McKinley

West McKinley boasts the famous San Rosario Springs and the best American hotel in the Isle of Pines. This hotel, the West McKinley Inn, was built and fully equipped by the Isle of Pines Company. It has acetylene gas, running water, baths, refrigerating plant and fresh vegctables are served from the Inn garden. Located on the high banks of the Callejon river, it is situated in a delightful part of the West Mc-Kinley Colony, which is being rapidly settled by Americans.

Thousands of dollars have been spent by the Isle of Pines Company upon automobile roads, bridges and other needed improvements.

### SEND FOR LITERATURE

The Isle of Pines Company prints the McKINLEY HERALD which gives the latest news of the McKinley Colonies and tells of their progress. This paper is read by over 20,000 people. If you would be interested in reading it, we will glady place your name on our mailing list. When writing be sure to mention the "APPEAL".
